“ Was so sorry to read that Louise had passed away. I was the nurse for Dr. Bill Howard and she and Tom were "my" patients for many years and they were both delightful people. I remember them always talking about where and when they had gone dancing which was definitely something they loved to do and were very good at it. I also remember Tom going to garage sales and always picking up some sort of "machine" like mowers and etc and he was fixing them up and repairing them to resell. I kind of lost trace of Louise after she sold the house and moved to an adult living facility. After Dr Howard retired I did also but have so many wonderful memories of my 15 years in his office as his nurse and caring for all his patients and Tom and Louise were definitely among those memories!!
